PARTS CHECKLIST

Make sure your package includes the items shown here.

TELEPHONE JACK REQUIREMENTS

To use this phone, you need an RJ11C type modular telephone jack, which might look like the one pictured here, installed in your home. If you don't have a modular jack, call your local phone company to find out how to get one installed.

Modular telephone line jack

DIGITAL SECURITY SYSTEM

Your cordless phone uses a digital security system to protect against false ringing, unauthorized access, and charges to your phone line.

When you place the handset in the base, the unit verifies its security code. After power outage or battery replacement, you should place the handset in the base for about 20 seconds to reset the code.

INSTALLATION NOTE: Some cordless telephones operate at frequencies the may cause interference to nearby TVs microwave ovens, and VCRs. To min or prevent such interference, the base of the cordless telephone should no placed near or on top of a TV, microwave ovens, or VCR. If such interferen-continues, move the cordless telephone farther away from these appliances

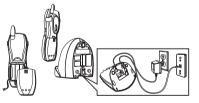

Certain other communications devices may also use the 5.8 GHz frequency for communication, and, if not properly set, these devices may interfere with each other and/or your new telephone. If you are concerned with interference, please refer to the owner's manual for these devices on how to properly set channels to avoid interference. Typical devices that may use the 5.8 GHz frequency for communication include wireless audio/video senders, wireless computer networks, multi-handset cordless telephone systems, and some long-range cordless telephone systems.

Installation

IMPORTANT INSTALLATION GUIDELINES

- Avoid sources of noise and heat, such as motors, fluorescent lighting, microwave ovens, heating appliances and direct sunlight.
- Avoid areas of excessive dust, moisture and low temperature. Avoid other cordless telephones or personal computers
- Never install telephone wiring during a lightning storm.
- Never install telephone jacks in wet locations unless the jack is specifically designed for wet locations.
- Never touch non-insulated telephone wires or terminals, unless the telephone line has been disconnected at the network interface.
- Use caution when installing or modifying telephone lines.

INSTALLING THE PHONE

Choose an area near an electrical outlet and a telephone wall jack (RJ11C), and place your cordless telephone on a level surface, such as a desktop or tabletop, you may mount it on the wall.

2. Install the handset battery.

TROUBLESHOOTING TIPS

CALLER ID SOLUTIONS

- . Fully charge (for 12 hours) or replace the battery.
- If you are using AC (electrical) power, make sure that the unit is connected to a non switched electrical outlet. Unplug the AC power converter from the unit and plug it back in.
- Caller ID incomplete
- The unit displays this message if it detects anything other data message than valid Caller ID information during the silent period after the first ring. This message indicates the presence of noise on the line.

TELEPHONE SOLUTIONS

No dial tone

- · Check or repeat installation steps
- Make sure the base power cord is connected to a working electrical outlet.
- . Make sure the telephone line cord is connected to the base unit and the modular
- Disconnect the base from the wall phone jack and connect another phone to the same jack. If there is no dial tone on the second phone, the problem might be you wiring or local service.
 - . The handset might be out of range of the base. Move closer to the base.
 - Make sure the battery is properly charged (for 12 hours).

 - Ensure the battery pack is installed correctly.
 - Did the handset beep when you pressed the talk/callback button? Did the in use indicator come on? The battery may need to be charged.
 - Handset does not ring . Make sure the RINGER switch on the handset is turned to ON.
 - · You may have too many extension phones on your line. Try unplugging

 - See solutions for "No dial tone." Charge/in use indicator on the base flashes
 - Provided your phone company offers voice messaging service and you subscribe
 to it, the charge/in use indicator on the base flashes when the phone is not in use
 to indicate there is a message waiting. It stops flashing after the message has
 - You experience static, noise, or fading in and out
 - Change channels The handset maybe out of range. Move closer to the base.
 - Relocate the base.
 - Charge the battery.
 - . Make sure base is not plugged into an electrical outlet with another

 - Unit beens

 - Place handset in base cradle for 20 seconds to reset the security code. If that doesn't work, charge the battery for 12 hours. See solutions for "No dial tone."
 - · Replace the battery.
 - Memory dialing
 - Make sure you correctly program the memory location keys.
 - Make sure you follow the proper dialing sequence You must reprogram numbers into memory after a power outage or

 - Out of range
 - . Reset the battery. Unplug the battery and plug it in again after five seconds.
 - Reset the power supply. Unplug the supply and plug it in again after five seconds.

CAUSES OF POOR RECEPTION

- Aluminum siding.
- Foil backing on insulation
- Heating ducts and other metal construction can shield radio signals.
- · You're too close to appliances such as microwaves, stoves, computers, etc
- Atmospheric conditions, such as strong storms.
- Rase is installed in the basement or lower floor of the house
- Base is plugged into an AC outlet with other electronic devices
- . Baby monitor is using the same frequency. Handset battery is low.
- You're out of range of the base

GENERAL PRODUCT CARE

DO NOT expose to direct sunlight or moisture

- To keep your telephone working and looking good, follow these guidelines:
- Avoid putting the phone near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- Avoid dropping and other rough treatment to the photo-
- · Clean with a soft cloth.
- Never use a strong cleaning agent or abrasive powder because this will damage
- Retain the original packaging in case you need to ship the phone at a later date.
